Your lab dates

Every lab is 16:00–18:00. Crossed-out labs fall on a holiday and may be rescheduled. Most labs end by Christmas, so January dates are marked as possible.

WEEK	MONDAY	WEDNESDAY
W1 ODD	● 5 Oct · Biochemistry	● 7 Oct · Physics
W2 EVEN	–	● 14 Oct · Biology
W3 ODD	● 19 Oct · Biochemistry	● 21 Oct · Physics
W4 EVEN	–	● 28 Oct · Biology HOLIDAY · MAY BE RESCHEDULED
W5 ODD	● 2 Nov · Biochemistry	● 4 Nov · Physics
W6 EVEN	–	● 11 Nov · Biology
W7 ODD	● 16 Nov · Biochemistry	● 18 Nov · Physics
W8 EVEN	–	● 25 Nov · Biology

WEEK	MONDAY	WEDNESDAY

W10 EVEN	–	● 9 Dec · Biology
W11 ODD	● 14 Dec · Biochemistry	● 16 Dec · Physics
W12 EVEN	–	● 23 Dec · Biology PROBABLY NO LAB
Christmas break · 24 Dec – 10 Jan		
W13 ODD	● 11 Jan · Biochemistry POSSIBLE · CHECK WITH YOUR LAB	● 13 Jan · Physics POSSIBLE · CHECK WITH YOUR LAB
W14 EVEN	–	● 20 Jan · Biology POSSIBLE · CHECK WITH YOUR LAB
W15 ODD	● 25 Jan · Biochemistry POSSIBLE · CHECK WITH YOUR LAB	● 27 Jan · Physics POSSIBLE · CHECK WITH YOUR LAB

Odd or even?

Teaching weeks are numbered from week 1 (5 Oct), which is odd. The Christmas break does not count, so week 13 in January is odd.

December

Hospital introductions may be this week or next. They are announced in CSP. Week 12 probably has no labs.

No classes

Mon 26 – Wed 28 Oct and Tue 17 Nov. Christmas break 24 Dec – 10 Jan.

January

Labs possible. Most labs end by Christmas, so check with your lab.

Your usual week

What it all means

α1 α2 α3 Lab groups

The year is split into three lab groups of about 20 students. Lectures are for everyone. CSP sessions and labs are by group.

Odd and even weeks

Teaching weeks are numbered from week 1 (5 Oct). Week 1 is odd, week 2 is even, and so on. Some of your labs happen only in odd weeks, others only in even weeks.

GBc Bio Phy Labs

General Biochemistry, Medical Biology and Medical Physics labs.

CSP Clinical Skills and Practice

Introduction to Clinical Skills and Practice (MD1005), your hands-on course: the Greek healthcare system, taking a history, hand hygiene, vital signs, injections, and Basic Life Support with a defibrillator (BLS-AED). You have a 2-hour session with your group, plus a lecture for everyone on Friday. Your CSP instructor confirms which weeks the group sessions run.

Amph. B' Amphitheatre B'

The lecture hall for all theory classes. In Greek, the ' mark turns a letter into a number, so B' ("Beta") means the second amphitheatre.

A1 B2.1 Greek levels

Greek Language I runs at two levels. A1 is for beginners (Tuesday), B2.1 for students who already speak Greek well (Thursday). The placement test decides which one you join.

ECTS Credits

European credits. 1 ECTS is about 28 hours of work, counting classes and your own study. Semester 1 adds up to 30 ECTS.

Tips from IMSOG

- ◆ With 26 and 28 Oct off, and the 27th in between, you get a 5-day weekend, Sat 24 to Wed 28 Oct. A good time to travel.
- ◆ The Ochi Day parade on 28 Oct is worth seeing at least once while you live in Thessaloniki.
- ◆ You will not have a lab every week, and most labs finish by Christmas.
- ◆ Hospital introductions happen in December, in week 11 or 12. CSP will tell you when.
- ◆ Take the Greek placement test first. It decides whether you go to A1 on Tuesday or B2.1 on Thursday.
- ◆ If you are ill and miss a class, the International Studies Office can help you contact the teacher.
